**HOLISTIC MOMS NETWORK AND WELLNESS POSSIBILITIES PARTNER TO PROVIDE
ACCESS TO AFFORDABLE, QUALITY HOLISTIC SERVICES**

*Online Holistic Provider Directory and Parent Community Connect Families
With Trusted, Licensed Practitioners*

Caldwell, NJ – The Holistic Moms Network (HMN), a 501(c)(3) non-profit organization dedicated to creating supportive communities of holistic-minded parents, today announced a partnership with Wellness Possibilities, a national online directory of trusted, holistic wellness practitioners and service providers. Beginning in January 2010, HMN members will be automatically enrolled in the Wellness Possibilities *Wellness Club* at no extra cost. The Wellness Club provides Wellness Possibilities users with savings and discounts on a wide range of holistic services including yoga, hypnotherapy, chiropractic care, prenatal services, and much more. With Wellness Club membership, HMN members will be able to use the Wellness Possibilities directory to quickly and easily find affordable ways to meet individual and family wellness goals.

“At HMN, we are focused on building support communities for holistic parents and helping them to learn about a variety of wellness options,” said Nancy Massotto, Executive Director of Holistic Moms Network. “This new partnership takes our mission to the next level by bringing together practitioners and parents who share a passion for wellness and all things holistic.” Because Wellness Possibilities service providers are screened prior to listing, HMN members will have access to experienced and qualified providers. And the rapid growth of the Wellness Possibilities directory means HMN members will have an ever expanding list of local services and practitioners to choose from.

HMN parent members won't be the only ones to benefit from this alliance. Holistic practitioners will gain local, regional, and national exposure to likeminded potential clients via access to HMN's thousands of nationwide members. And as an extra incentive, Wellness Possibilities offers affordable, yearly advertising fees to all its service providers.

“There are a growing number of people in this country eager to tap into the power of holistic health and wellness care,” said Kathy Smyly Miller, CEO and Founder of Wellness Possibilities. “We are very excited about our partnership with HMN and the ability it will give us to expand our reach, and to support service providers by helping them connect with like-minded communities.”
